

When Darin first began receiving Supported Home Living Services with Yes I Can in 2007, he had one goal in mind - to live independently. After waiting more than 2 years, Darin finally moved into his own apartment last January. He has required very minimal assistance from his supported living staff and family. Darin maintains a spotless apartment, orders his own medications, purchases his groceries and manages his finances. Darin has worked at Pappadeaux Restaurant for 9 years and is a "star" employee. He enjoys watching movies, Spurs and Silver Stars basketball, spending time with family and friends, shopping at the mall, expanding his cooking skills and living in his own apartment.
